Questions to be answered by R&D institution

This questionnaire is required for the R&D institution to be accepted as an approved R&D company by the Norwegian government controlled 'SkatteFUNN' group.

- The company's object clause. (Only companies that have a object clause that states that its aim is to (among other things) disseminate knowledge about R&D will be accepted)

- A short description about the company's strategy for increasing the level of in-house knowledge.
- Does the company have a separate R&D department or employees that are working with R&D on fulltime basis? If yes, please attach an organization char.
- Provide a list of employees with corresponding educational level (university degree)

- Give a short description of the company's R&D activities in a national and international perspective.
- Examples of new knowledge and/or technology that the company has produced during the last 3 years.
- In what ways is the company working to contribute to put to use existing knowledge in new applications?
- Overview of publications in magazines published during the last year.

- Overview of presentations on the national or international conferences during the last year.

- In what ways is the company contributing to increase the level of knowledge in other companies?
