

Climate and polar research

Given the nature of climate-related challenges and Norway's strategic role in polar research, there are very high ambitions for international cooperation.

The portfolio board is responsible for climate and polar-related portfolios involving:

- the climate system
- impacts
- adaptation
- emissions reduction
- international conditions
- environmental protection
- sustainable resource management

Members

Hanne Greiff Johnsen, Equinor, Trondheim, Chair

Eivind Selvig, Civitas, Oslo

Tor Eldevik, University of Bergen, Bergen

Sandrine Benard, Norwegian Environment Agency, Oslo

Tove Gabrielsen, University of Agder/University Centre in Svalbard (UNIS), Kristiansand

Alf Håkon Hoel, UiT – The Arctic University of Norway, Tromsø

Grete Hovelsrud, Nordland Research Institute, Bodø

Bo Møllesøe Vinther, University of Copenhagen, Denmark

Bjørn Samseth, Center for International Climate Research (CICERO), Oslo

Vigdis Vandvik, University of Bergen, Bergen

Ellen Øseth, Norwegian Polar Institute, Tromsø

Camilla Brattland, UiT – The Arctic University of Norway, Tromsø
