

Natural science and technology

The portfolio board is responsible for investment decisions within natural science and technology for the Research Council's funding scheme for independent projects (FRIPRO), as well as for providing scientific advisory services.

Together, the members are to have a high degree of scientific expertise across the scientific scope of the thematic area to enable them to carry out their board's tasks in the best possible manner.

Members

Eva Sørensen, University College London, UK, Chair

Inga Berre, University of Bergen, Bergen

Andreas Carlson, University of Oslo, Oslo
