

We hereby provide information from our institution/department/industry to be included in the list of CCS-institution/industry to be published on the ACT-homepage www.act-ccs.eu.

1. Name of Institution:

National Research and Development Institute for Marine Geology and Geoecology

2. Abbreviation:

GeoEcoMar

3. Department:

CO₂ Geological Storage

4. Speciality (ies) field within CCS:

CO₂ geological storage: site selection and characterization, geochemical and geophysical monitoring, risk assessment.

5. Web-page:

www.geoecomar.ro

6. Other info:

GeoEcoMar coordinated the Storage Section of the Feasibility Study for GETICA CCS demo project. The institute participated at many national and international projects in the field of CO₂ storage (National Program of CCS for period 2011-2020, EUGeoCapacity, CO2NetEast, Impact of communication, CGS Europe, CO2Stop).

7. Contact person:

Name: Constantin Stefan SAVA

Position: Senior Geophysicist 1st degree

Address: 23-25 Dimitrie Onciul Street, Bucharest, 024053, Romania

e-mail: savac@geoecomar.ro

Phone: +40-722-786434

Place and Date: 10th February 2016, Bucharest, Romania

Signature:
