

We hereby provide information from our institution/department/industry to be included in the list of CCS-institution/industry to be published on the ACT-homepage (www.act-ccs.eu).

1. Name of Institution: SALCAPE AS

2. Abbreviation: SALCAPE - Carbon Capture

3. Department: N/A

4. Speciality (ies) field within CCS:

SALCAPE is a technology provider offering effective solutions for industrial CO₂-capture from industrial flu-gas using calcium looping in molten salt.

5. Web-page:

www.salcape.com

(under development)

6. Other info:

The SALCAPE process builds on calcium-looping, but with molten salt as medium. Advantages of our process include: more efficient uptake, no reduction in effect over time, lower CAPEX and OPEX, smaller physical space requirements and less maintenance.

7. Contact person:

Name: Henrik Lid Scharff

Position: Managing Director

Address: Håndtaket 8, 1782 Halden, Norway

e-mail: henrik.scharff@salcape.com

Phone: +47 9526 7439

Place and Date: Oslo, Feb 10, 2016
