

Nye IPN-tildelinger 2019

Prosjektnummer	Prosjektittel	Prosjektansvarlig
295707	Enabling time-lapse 3D CSEM for reservoir management	ELECTROMAGNETIC GEOSERVICES ASA
295708	Probing the use of electrochemical cells in downhole conditions to reduce the environmental footprint of Oil & Gas well Plug & Abandonment.	INNOVATION ENERGY AS
295902	Automatisert prosess for oppfølging av instrumenterte sikkerhetssystemer	KONGSBERG MARITIME AS AVD CARPUS KONGSBERG
295971	Ultrasonic 2nd barrier cement evaluation	BERGEN TECHNOLOGY CENTER AS
296039	Automatic prediction of reservoir inflow using data-driven physical modelling	TURBULENT FLUX AS
296093	SmartRocks - Artificial Intelligence improving Digital Rock Technology	PETRICORE NORWAY AS
296193	OPG11 optics	OPTRONICS TECHNOLOGY AS
296263	Development of Impulse Radar LWD tool	WELL ID AS
296586	Hydraulics Influx Tracking (HIT) – Real-time monitoring gas expansion while circulating out an influx	KELDA DRILLING CONTROLS AS
296709	Advanced 3D visualization and AR for industrial operations	COGNITE AS
