

Nye KPN-tildelinger 2019

Prosjektnummer	Prosjekttittel	Prosjektansvarlig
294369	Improved prediction of stress and pore-pressure changes in the overburden for infill drilling	SINTEF AS
294404	Geophysics and Applied Mathematics for Exploration and Safe Production	NORGES TEKNISK-NATURVITENSKAPELIGE UNIVERSITET NTNU
294636	New Hydrate Management: New understanding of hydrate phenomena in oil systems to enable safe operation within the hydrate zone	STIFTELSEN SINTEF
294688	Optimized hydraulic behaviour in well construction	SINTEF AS
294689	Multscale Hydrogen Embrittlement Assessment for Subsea Conditions	NTNU FAKULTET FOR INGENIØRVITENSKAP
294762	Digital Worker and Exposure Risk Assessment	SINTEF DIGITAL
295002	Assimilating 4D Seismic Data: Big Data Into Big Models	UNI RESEARCH AS
295132	Tophole monitoring of permanently plugged wells	SINTEF AS
295208	Suprabasins – sedimentary response to growth of major extensional fault systems	Institutt for geofag (UiO)
